FOR IMMEDIATE RELEASE

Public Information Meeting on October 29 regarding Improvements to Intersection of Mountain Road at Albany Avenue

WEST HARTFORD, CONN. (October 12, 2018) – The Town of West Hartford is preparing design plans to improve the intersection of Mountain Road at Albany Avenue, which is heavily congested with traffic. The proposed project will widen Mountain Road north and south of Albany Avenue to provide a dedicated left turn lane, a through lane, and a shared through/right turn lane in each direction. The traffic signal will also be replaced as part of the project. These improvements will provide additional intersection capacity, which will accommodate the existing and future vehicular demand, and improve safety.

The Town will be hosting a meeting to explain the project and solicit valuable feedback from the community which will assist in the project's development. The Public Information Meeting is scheduled on Monday, October 29th at 6:30PM in Room 400 at the West Hartford Town Hall, 50 South Main Street. Deaf and hearing impaired persons wishing to attend the meeting and requiring an interpreter may make arrangements by contacting the Engineering Division at (860) 561-7540 at least five working days prior to the meeting.

If you would like to learn more about this project or provide feedback, but are unable to attend the meeting, you are encouraged to contact the West Hartford Engineering Division at (860) 561-7540.
